

KLEIN CONSTANTIA ESTATE, CONSTANTIA,  
SOUTH AFRICA

# ESTATE SAUVIGNON BLANC

## DETAILS OF PRODUCTION

A great deal of attention has been placed on expressing the Klein Constantia style in this wine. It consists of a blend of various parcels from the estate, each kept separate throughout the winemaking process. Finally, they are carefully blended together to create a perfect representation of the unique Klein Constantia terroir. Harvested at 4am in the morning in order to preserve the freshness. A selection of 36 different blocks were used, each harvested and vinified separately in order to create the perfect blend. Only free run juice extracted and used from a combination of both whole bunch and destemmed grapes. 25% percent of the fruit underwent skin contact for 12 hours, 80% wild fermentation, 100% organic nutrients and wine is now 100% vegan friendly.

## TASTING NOTES

Light and bright in appearance. Fresh flavours of grapefruit, green fig and an oyster shell salinity fill the nose. Full bodied and concentrated, the palate is textured with a light acidity and bold minerality. An elevated expression of Sauvignon Blanc. The wine concludes with crisp and long spicy finish.

## HOW TO SERVE

A great food wine. Perfect as an accompaniment to South African West Coast oysters and warm citrus fish salads. Drink now or leave to develop until 2024.

*“With the Sandstone soil sites offering richer and rounder flavours and the granitic soils tauter, more mineral, pithy white citrus characters, this vintage reveals a wonderfully rich textured and expressive palate that is loaded white citrus, yellow grapefruit, gooseberry, mango peel, apple puree, freshly cut grass and quince preserve. Fabulously constructed with delicious mid-palate balance, notable concentration and a long alluring finish.” 92+ points*
