

HENRIQUES & HENRIQUES
SINCE 1850

MADEIRA, PORTUGAL - HENRIQUES & HENRIQUES

2020 Harvest:

The 2020 harvest in Madeira had an unusually early start. Usually, the harvest starts on the 1st of September; however, the official first day of harvest established by the IVBAM Madeira Wine Institute was on the 24th August 2020.

Henriques & Henriques started with harvesting their Terrantez, which is an earlier ripening varietal. The summer was hot with lots of sunshine.

The photos below show the boxes of grapes being taken up their extremely steep hills, in the hot sunshine, to the main road to be transported to their vinifying cellar at Quinta Grande.
